PROFESSIONAL PROFILE

Python/Django and full-stack developer with nearly four years of production experience at COLEAD. Built and maintained web platforms with Django, Wagtail, PostgreSQL and JavaScript, alongside custom WordPress/PHP solutions. Experienced with multilingual CMS platforms, API integrations and collaborative Agile delivery. Currently building independent React/Three.js and Django projects while developing applied AI engineering skills.

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer | COLEAD · Brussels

Jul 2022 – Apr 2026

- Contributed to AGRINFO (agrinfo.eu), a production EU regulatory-information platform using Python, Django, Wagtail, PostgreSQL and JavaScript.
- Implemented and maintained backend functionality, content models and user-facing features within a shared codebase.
- Worked on multilingual features integrated with the DeepL API; improved navigation, usability and responsive interfaces.
- Independently implemented the Agrinnovators website (agrinnovators.org) with WordPress/Divi, custom PHP and JavaScript/jQuery, custom post types, ACF, dynamic queries, search/filtering, registration and WPML.
- Supported legacy-data migrations to CRM/ERP environments, with attention to integrity and GDPR requirements.
- Collaborated in Agile delivery through Scrum, sprint planning, code reviews, Jira, Git/GitHub and technical documentation.

TECHNICAL EXPERTISE

Backend: Python · Django · PHP · REST APIs · Wagtail

Frontend: JavaScript · HTML/CSS · Tailwind CSS · Alpine.js · jQuery · Bootstrap · React (personal projects)

Data: PostgreSQL · MySQL · SQL · data migration

CMS: WordPress · Divi · ACF · WPML · custom post types

Delivery: Git · GitHub · Jira · Agile/Scrum · code reviews

Currently developing: Three.js / React Three Fiber · Django AI agents · Docker

SELECTED PROJECTS

Interactive developer portfolio — atinosdev.eu | React, Vite, Tailwind CSS, Three.js / React Three Fiber. Procedural 3D scenes, interactive UI, navigation and GitHub Pages deployment.

Django AI Employees — github.com/Atinos31/django-ai-employees | Work in progress: Django apps for orders, refund requests, support conversations and agent logs; AI integrations under development.
