PROFESSIONAL PROFILE

Full Stack Software Developer with 4 years of professional experience, primarily in the Python/Django ecosystem. Experienced in developing and maintaining production web platforms within multidisciplinary Agile teams. Strongest hands-on experience includes Python, Django, Wagtail CMS, JavaScript, Tailwind CSS, PostgreSQL and WordPress/PHP. Currently seeking a development role where I can contribute my existing experience while strengthening my backend skills and continuing to grow technically.

TECHNICAL SKILLS

- Backend: Python, Django, Wagtail CMS, PHP; working knowledge of Flask.
- Frontend: JavaScript, Alpine.js, Tailwind CSS, Bootstrap, HTML/CSS; limited exposure to React.
- Databases: PostgreSQL; experience with MySQL, MongoDB and SQLite.
- CMS & Web: Wagtail, WordPress, Divi, custom post types, jQuery.
- Tools & Workflow: Git/GitHub, Jira, Agile/Scrum, VS Code, PyCharm, Zoho CRM/Desk, Teams, Slack.
- Infrastructure: Experience working with AWS, Heroku, DigitalOcean and Docker.
- Developing interests: AI-assisted development, prompt engineering, automation and data-oriented development.

PROFESSIONAL EXPERIENCE

Full Stack Software Developer | COLEAD, Brussels | July 2022 – April 2026

- Contributed to the development and maintenance of Agrinfo.eu as part of a core technical team, working mainly with Django and Wagtail on a data-driven web platform.
- Developed and maintained backend functionality, content structures and user-facing features, collaborating with colleagues on shared code and technical problem-solving.
- Contributed to the technical and visual improvement of COLEAD's corporate web platforms, including navigation, usability and responsive interfaces.
- Worked with multilingual platform functionality, including features connected to the DeepL API, while collaborating with senior developers on wider search and platform architecture.
- Supported data migration from legacy systems into modern CRM/ERP environments, with attention to data integrity and GDPR requirements.
- Developed and maintained WordPress functionality for Agrinnovators.org using PHP, jQuery, Divi and custom post types.
- Worked in an Agile environment, participating in daily Scrums, sprint planning, code reviews and technical documentation using Jira and GitHub.
